SUMMARY

Hello, Let me introduce myself, my name is Omar. Currently, I'm a remote web Developer for a company based out of Warsaw, Poland, called ITCraftship. I specialize in JavaScript, particularly Full Stack Developer with Node.js and Ruby on Rails. The position I obtain with this company has helped me develop many apps and websites using edge technologies such as: Ionic, Tailwindcss, Angular, React, React Native, Flutter, Firebase, Node, MongoDB, etc. Before this experience, I built my own tech company in Peru an agency that helped clients build versatile platforms for their businesses. I'm 29 and currently located in Chiclayo, Peru. For any further questions about my credentials, I'm available for video calls and any emails about my skills, personality, and references.

COACH

Startup Weekends are weekend-long, hands-on experiences where entrepreneurs and aspiring entrepreneurs can find out if startup ideas are viable. On average, half of Startup Weekend's attendees have technical or design backgrounds, the other half have business backgrounds. Beginning with open mic pitches on Friday, attendees bring their best ideas and inspire others to join their team. Over Saturday and Sunday teams focus on customer development, validating their ideas, practicing LEAN Startup Methodologies and building a minimal viable product. On Sunday evening teams demo their prototypes and receive valuable feedback from a panel of experts.

REFERENCES

“ Omar joined Velocis and our remote team as a very green junior developer. I've been very impressed with how he has pushed himself to progress over the years and how his skills have improved. Omar is also the most loyal employee that I've ever worked with and this is a quality I value immensely. I would recommend Omar for any developer role that will continue to support his growth.
